Full Turnkey Solutions

In keeping with the latest trends, Visi Developers offers full turnkey solutions to its clients. Instead of just specialising in developing, the company offers services in décor, construction, paintwork, tiling and swimming pools as well. By offering a complete holistic service, Visi Developers have become well known for its impressive work. The company offers natural stone products for wall cladding, tiles and mosaics, local and imported ceramic or porcelain tiles, as well as a myriad of baths, basins and taps.

Perfect Cup Of Coffee

For all of those coffee connoisseurs out there, AEG has developed a built-in coffee machine, the Café Automat PE 9010 M, that ensures the perfect cup of coffee every time. This ultra cool machine not only makes the best freshly ground coffee, espresso, cappuccino, tea or hot chocolate, but because of its steely grey presence and sleek design, it will complement and considerably enhance the style of your kitchen. With this fully automatic machine, you can make authentic coffee from ground coffee or coffee beans, with no effort at all - the machine does all the hard work for you. Furthermore, this coffee machine is easy to clean - just one press of a button initiates a process that will automatically clean the unit and the cappuccino dispenser. Some of the other dynamic features include the LCD display, electronically programmable functions available in six languages, extractable steam / water spout, double boiler for coffee and hot water, 2,3-litre water tank.

When Fun And Comfort Collide

Tired and bored of ordinary sofas? Looking for funky items that will encourage you to relax and unwind? FatSak has the ability to offer you just that - an affordable and unique alternative to traditional sofas and settees. Unlike ordinary bean-bags that usually flatten over time, these outrageously delightful pieces are filled with copious amounts of foam and are covered in the most sumptuous of fabrics. The covers are removable, and mostly machine washable - they range from denims to furs.

Never A Dull Moment

The exciting Eglo range of contemporary light fittings from Eurolux has been designed to offer people much more than just light fittings. This Austrian-based brand now includes several new ranges of state-of-the-art light fittings, including modern pendants, floor, wall and table lamps. Available from the Eglo range is the retro range of light fittings. These items are retro orange in colour making them ideal for eating areas, since the warm colour of orange is said to encourage conversation. Some of the other items of the range include touch-sensitive dimmers - when any part of the main component is touched, the lamp will even switch off. All of these fittings are keeping with the current European style. Eurolux offers a wide range of contemporary light fittings, with the benefit of being affordable.

The Perfect Roof

Cape Roof Supply and Contracting specialises in the supply and installation of all major roofing materials. Some of the top quality roofing products are roof trusses, concrete roof tiles (Lafarge Roofing), chromadek metal sheeting, natural slates (Mazista), and a range of insulation. Cape Roof ensures that all material are installed in accordance with manufacturer specifications. The end result is therefore not only a well executed roof, but a very convenient one-stop roofing solution.
